Description: The measure notified in document G/TBT/N/TPKM/425/Add.3 will be implemented on 1 August 2025. The relevant inspection standard, CNS 9737, has been revised to address technical challenges in applying the dovetail form back feet requirement to small-sized exterior tiles—specifically, those with a surface area of less than 4 cm². Accordingly, the revised standard will exempt such tiles from this requirement. In addition, the revised standard will introduce a new requirement for labeling the "year, month" or "year, week" of manufacture. This notification serves to inform WTO Members of these forthcoming changes and the adoption of the updated version of CNS 9737 as the inspection standard.
